Profile

Third-year Informatics Engineering student at ISEP, focused on offensive security. One of the 15 juniors selected for the national cybersecurity bootcamp (National Cybersecurity Centre, 2026), finishing in the junior top 10. 8th of more than 300 teams at upCTF 2026, in a first CTF. CCNA certified; CEH v13 and AWS Cloud Practitioner training completed. Tutored classmates in STEM subjects in high school and handled sponsor outreach for NEI-ISEP. Looking for a curricular internship from February to June 2027 in cybersecurity.

Awards and competitions

Cybersecurity Challenge PT 2026 Jul 2026
National Cybersecurity Centre (CNCS), Rio Maior

- One of the 15 juniors selected for the national bootcamp; finished in the junior top 10.

CHAØS, ISEP's CTF team Feb 2026 - present
NEI-ISEP, Porto

- 8th of more than 300 teams at upCTF 2026, my first CTF.
- Regular CTF player: mostly forensics, reverse engineering, pwn and misc.

ENEI Sueca Bot Tournament 2025
ENEI, Porto

- Wrote bots for Sueca, the Portuguese card game, that ran in Docker containers against other teams.

Best Project Award, "All Aboard" 2025
ISEP, Porto

- Awarded for the first-year integrative project, which covered every first-year module.

Skills

Offensive security CTFs (forensics, reverse engineering, pwn, misc), Burp Suite, Hydra, Kali Linux, CEH v13 training.

Networking CCNA (TCP/IP, OSI, DHCP, DNS, NTP, ACLs, VLANs, routing and switching, OSPF, SSH), IPsec VPN, NAT, Cisco IP telephony, SNMP and Syslog, switch hardening (port security, DHCP snooping, dynamic ARP inspection) and Wireshark.

Programming Java (every course project since 2024), C, Python, C++, Kotlin.

Cloud and tools AWS Cloud Practitioner course training (EC2, S3, VPC, RDS), Linux, Git, GitHub, GitLab, Docker, Ansible.

Teamwork project teams of two to five at ISEP, peer tutor in high school, sponsor outreach for a student association.

Experience

Member of External Relations Oct 2025 - Jul 2026
Núcleo de Estudantes de Informática (NEI-ISEP), Porto

- Contacted companies about event sponsorships.
- Helped organise events such as GameJam and CodeSpring.

Projects

CCNA 3 final project: three-site enterprise network 2025/26
ISEP Academy, team project on real Cisco equipment

- Worked on every stage of a three-site network (headquarters in Zagreb, branches in Pula and Split) built on physical Cisco routers, multilayer and access switches and a wireless controller, with most of my work on telephony and routing.
- The design covered VLANs, IPv4 and IPv6, EtherChannel, HSRP and DHCP, plus switch hardening: port security, DHCP snooping, dynamic ARP inspection and BPDU guard.
- Inter-site stage: IPsec VPN tunnels, OSPF, NAT, ACLs, SNMP and Syslog, Cisco telephony and Ansible configuration backups. The project received the maximum score.

AISafe: flight control management system Feb - Jul 2026
ISEP, team of 5

- Java console applications, a flight-plan DSL parsed with ANTLR, a C simulation engine, and user roles with security clearances.

LAPR3 integrative project 2025/26
ISEP, team of 4

- Java application with C, C++ and Assembly modules and a PL/SQL database, including algorithm complexity analysis.

All Aboard Feb - Jul 2025
ISEP, team of 5

- Java application built through the full process: requirements, OO analysis and design, unit tests with coverage, and data analysis in Jupyter.
- Won the Best Project Award.

Face identification with Eigenfaces Sep 2024 - Jan 2025
ISEP, team of 5

- Face identification and image reconstruction with Eigenfaces (PCA) in Java. Top contributor.

Education

BSc in Informatics Engineering Sep 2024 - Jul 2027 (expected)
Instituto Superior de Engenharia do Porto (ISEP)
Modules include Computer Networks, Computer Systems, Computer Architecture, Data Structures, Databases, Software Engineering, Machine Learning and IoT. Erasmus semester at Aarhus University, Denmark (autumn 2026). The final semester is a curricular internship (February to June 2027).

Science and Technology track 2021 - 2024
Escola Secundária da Maia
School awards for academic and athletic achievement. Peer tutor in STEM subjects.

Certifications

CCNA Cisco Certified Network Associate, certified August 2026.

AWS Cloud Practitioner training completed at ISEP Academy, Oct 2025 - Jan 2026.

CEH v13 ethical hacking training completed at ISEP Academy, Feb - Jul 2026.

Languages

Portuguese (native), English (advanced, C1, IELTS Academic).

Volunteering

Scouts in Maia since 2012. Liga Portuguesa Contra o Cancro and Banco Alimentar Contra a Fome, every year since 2012.
